

Our team attended a 5-day course. "VZV" is a company with over 10 years wholesales experience. We are the leaders in children's footwear marsales in Russi. Before this course we were sure that we know everything about wholesale business, since we already been around and engaged in this industry for 10 year. After the course it seemed like for 10 years we were engaged not in wholesale, but in something else. A huge array of information. If we had learned all this 10 years ago, we would have already been not only leaders in Russia, but also worldwide. A clear structured material, clear examples, relevant cases and thre answers to our questions. We recommend all manufacturing and wholesale companies in Russia and CIS to attend this seminar organized by Fashion Consulting Group.

We want to thank Chinenova N.B. personally.

I would like to receive information about other FCG products.
